

How to change password?

1) Login in to the system, find the change password submenu under profile menu.

2) Then in the form enter your old password, new password, confirm password and captcha code and hit enter to change the password.

A screenshot of a 'Change Password' form. It has a title 'Change Password' and four input fields: 'Old Password', 'New Password', 'Confirm New Password', and a captcha field. The captcha field contains the image 'G R N D Z' and the text 'Enter captcha code here'. At the bottom right, there are two buttons: a purple 'Change Password' button with a checkmark and an orange 'Cancel' button with an X.
